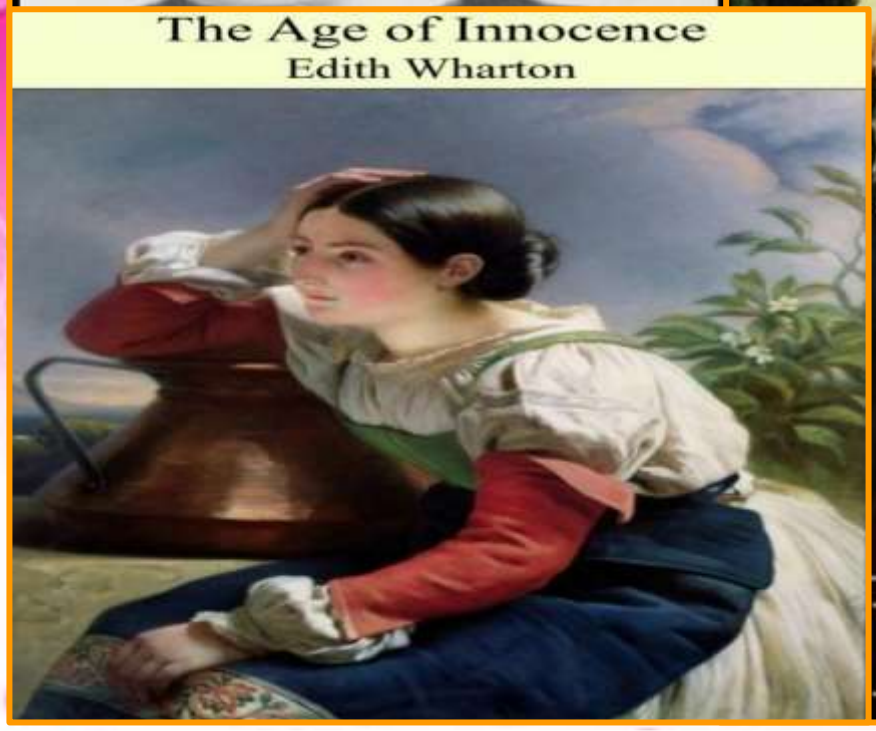
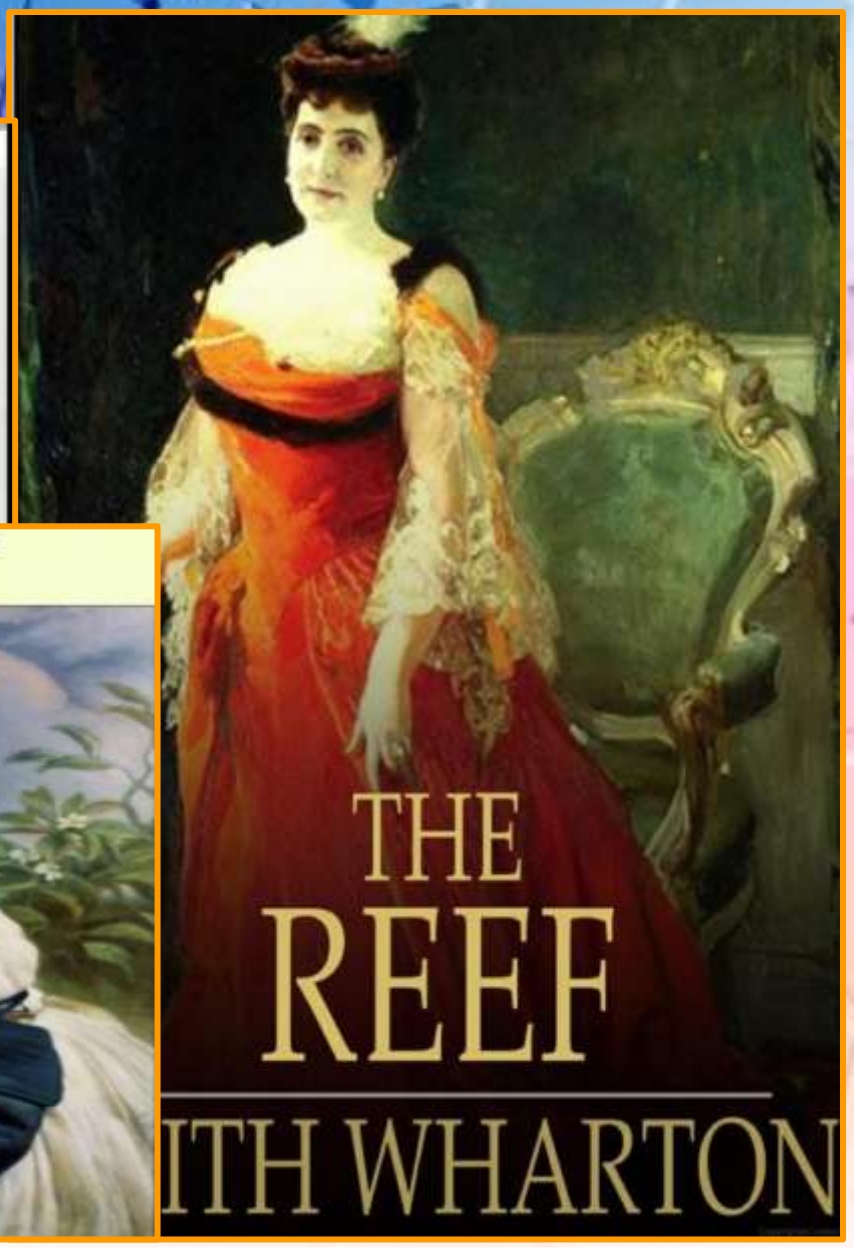
KNOW THE FACT

ENGLISH

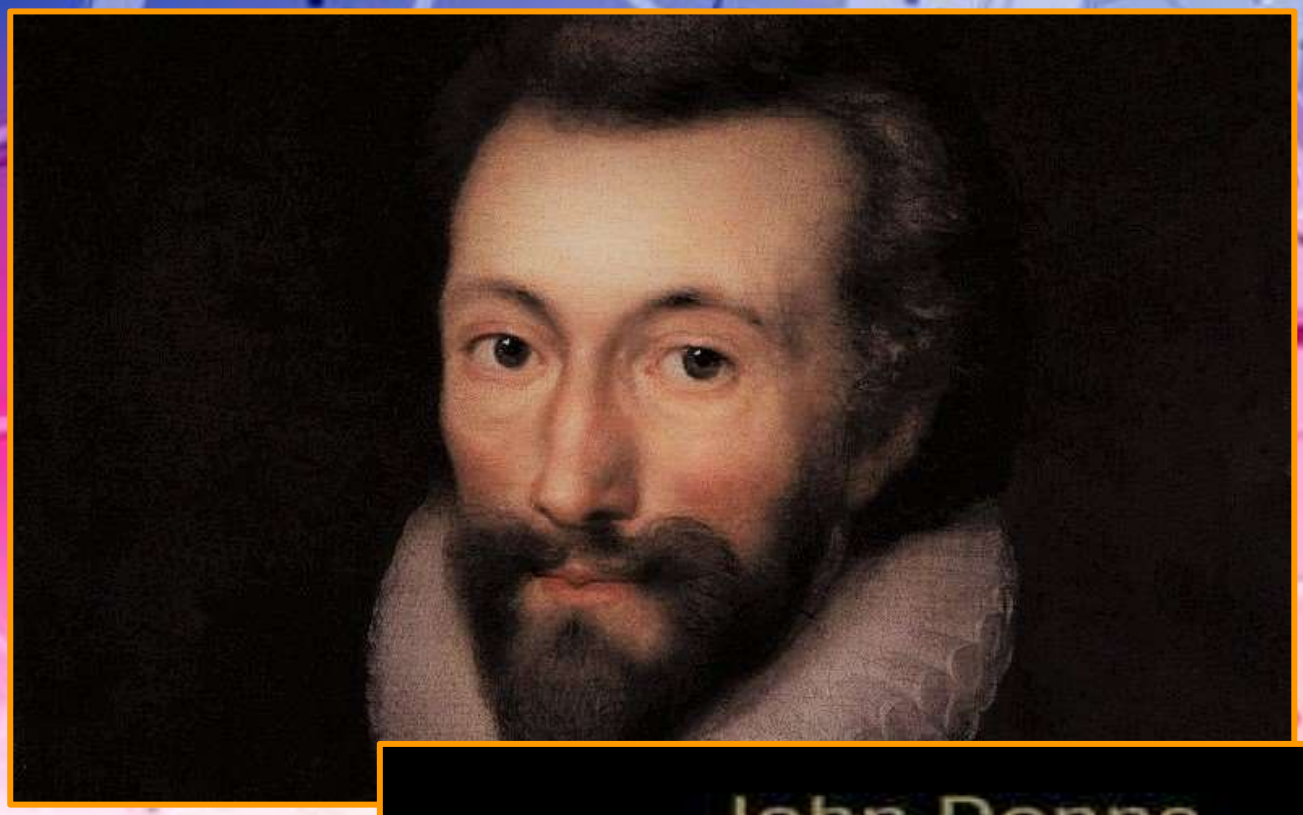


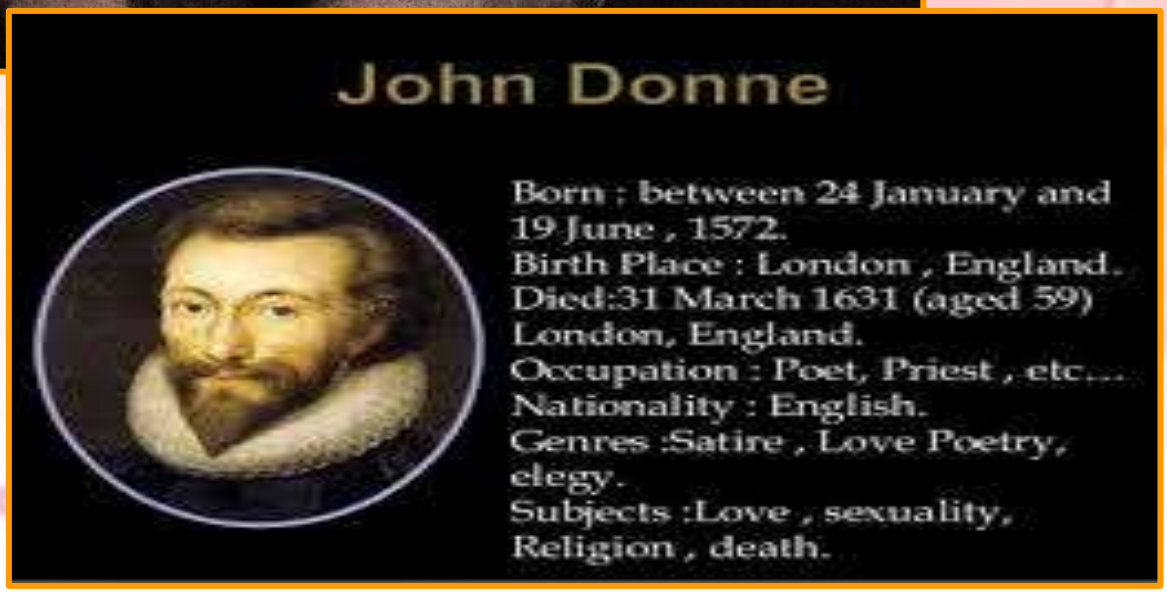


KNOW YOUR AUTHOR

Edith Wharton (1862 - 1937) was an American author and is best known for her stories and novels about the upper-class society into which she was born. Wharton drew upon her insider's knowledge of the upper class New York "aristocracy" to realistically portray the lives and morals of the Gilded Age. In 1921, she became the first woman to win the Pulitzer Prize in Literature, for her novel The Age of Innocence. She was inducted into the National Women's Hall of Fame in 1996.

ENGLISH

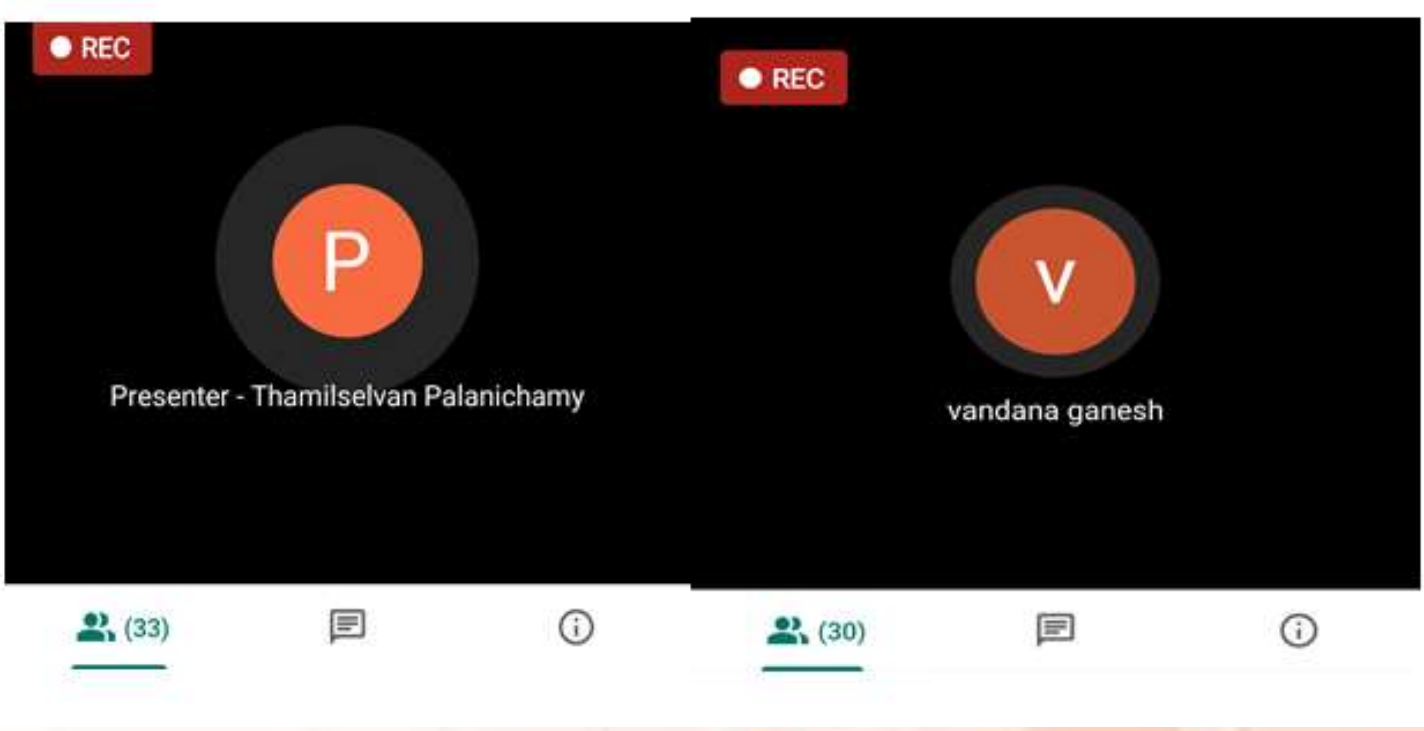




John Donne was an English poet of the Metaphysical school. He was also a cleric in the Church of England. His works include sonnets, sermons, love poems, religious poems, epigrams, songs, elegies, and satires. His poetry is noted for its vibrancy of language and inventiveness of metaphor, especially compared to that of his contemporaries.

PSYCHOLOGY

Guest Lecture



The Department of Psychology organized a guest lecture for the students of the Department on 'Induction to the World of Psychology' where Dr. Thamilselvan, Assistant Professor, Department of Psychology, PSG College of Arts and Science, Coimbatore introduced students to the different fields of Psychology. He also addressed them on the different means of approaching the field, newer avenues to explore and applications of the concepts of Psychology.

PSYCHOLOGY

India's Fight Against Polio

Polio, a Crippling disease was once epidemic in our Nation affecting the mobility of thousands of children, reflecting an irreversible, progressive decline in their functioning. As a measure towards fighting against Polio, India observes the National Immunization Day on the 18th of January each year. The Ministry of Health and Family Welfare through its scheme titled the 'Pulse Polio Vaccination' provides polio vaccine as drops to all children below the age of five, free of cost, which has resulted in India being a Polio-free nation.

PSYCHOLOGY

Polio and Mental Health

Polio is caused by a virus which affects the immune system of the body, directly reaching the brain. It affects the parts of the brain responsible for locomotion, hence affecting the mobility of an individual. in severe cases, the virus infects the brain stem, causing inability to breathe, resulting in death of the individual. Disability caused by Polio affects the mental health and wellbeing of not only the individual affected by the condition, but of the family as well. Providing psychological support to those affected by polio is also essential in addition to other domains of remediation.
