IMPACT ON EDUCATION SKILLS AND WORK

Education Skills ensure that educators have the knowledge and skills to improve their practices and have a positive impact on learning. Work is something that requires physical or mental effort that you do in order to achieve something.

Education is the key of success in future

If we are well educated today then tomorrow we will surely become successful in our life. But there are some hard work and study needed to get the education. Education is the key to success in future. Education is the key to success in future. Education is the key to success in future.

ALL PERSONS HAVE DIFFERENT SKILLS

Each person has different skills and talents. Some are good at drawing, some are good at writing, some are good at sports. We should use our skills to become successful in future.

THE THINGS WE ARE DOING TODAY IS SCIENCE BUT TOMORROW IT WILL BECOME TECHNOLOGY

Science is the systematic study of the structure and behavior of the physical and natural world through observation and experiment. Technology is the application of scientific knowledge to solve practical problems. The new things invented by us are called as technology.

FUTURE OF STI: IMPACT ON EDUCATION SKILLS AND WORK

Education :
Read, write, speak, and research better and make the most of your FIT Education. Whether English is your first language or your fifth, Educational Skills courses help you to develop the habits of study, and the habits of mind, that will enable you to succeed after completion of College.

Skills and Work :
Skills are things that you can do or abilities that you have. Many job skills are Learnable. You can get education or training that will teach you skills or improve the ones you already have. Sometimes you can learn on the job.

Science Technology and Innovation :
STI are the key drivers for economic growth and human development. For India to match ahead on a sustainable development pathway to include economic development social inclusion and environmental sustainability for achieving an "Economic Growth".

IMPACT OF TECHNOLOGY :
Technology uses science to solve problems, and science uses technology to make New discoveries. However, Technology and Science have different goals. The goal of science is to answer questions and increase knowledge. The goal of technology is to find solutions through Practical Problems only.
"Work from Home" based through Technology Only.

NATIONAL SCIENCE DAY - 2021

FUTURE OF STI : IMPACT ON EDUCATION SKILLS AND WORK

Sir Chandrasekhara Venkata Raman was a Tamil Brahman who had worked from 1907 to 1933 at the Indian Association for the Cultivation of Science, Kolkata, West Bengal.

...February 28th is celebrated as National Science Day to mark the discovery of the Raman effect by Indian physicist Sir C. V. Raman on 28 February 1928. This year's theme is Future of STI: Impacts on Education, Skills and Work. ... The theme of the competition is "Imagining the future of Science, Technology, and Innovation".

The things we are doing today is science but tomorrow it will become Technology.
Explanation :- The new things invented by us on today will be a technology tomorrow.
Example :- Internet was invented by Vint Cerf in 1991. And in today's date we are using it as technology.

**KNOW YOUR AUTHOR**

Lloyd C Douglas (1877-1951) was an American Minister and Author. Douglas was one of the most popular American authors of his time, although he did not write his first novel until he was 50. His first novel, *Magnificent Obsession*, published in 1929, was an immediate and sensational success. Critics held that his type of fiction was in the tradition of the great religious writings of an earlier generation, such as *Ben-Hur* and *Quo Vadis*.
