APRIL FOOL'S DAY

April Fool's Day is celebrated on April 1 every year and the day is filled with jokes and laughter and is looked forward to for all the happiness it generates. It is that one day in the year when people can get away with almost anything.

According to History.com, some historians speculate that April Fools' Day dates to 1582, when France switched from the Julian calendar to the Gregorian calendar, as called for by the Council of Trent in 1563. It was April 1, as believed, when the change of calendar from Julian to Gregorian was initiated, hence making it the most commonly believed reason for celebrating the day.

As per historians, the day started being celebrated after Pope Gregory XIII introduced the Gregorian calendar, and ruled that the new calendar would start from January 1 back in 1952. Prior to this, New Year used to be celebrated in March-end. As per History.com, the forgetful ones who celebrated New Year on April 1 were mocked on the day and had paper fish stuck on their backs, indicating that they were fools or easily hooked.
